Curricular unit sheet

Course Economic and Monetary Union

Curricular unit

Economic and Monetary Union (EN)

Responsible Academic staff and respective workload in the curricular unit (enter full name)

Nazaré Saldanha Póvoas da Costa Cabral (2 hour/week)

Other academic staff and respective workloads in the curricular unit

Learning outcomes of the curricular unit

The purpose of this course is to provide a comprehensive view about the role of the Economic and Monetary Union in the context of the European integration process, and to identify the main determinants of its creation. Also, it is aimed to characterize EMU as a (non) optimal monetary area and to analyse its basic fragilities. The objective is to assess EMU's evolution in the last decades bearing in mind the effects of the both 2007-2008 and COVID 19 crises on its functioning, leading to recent reform proposals and new challenges for the future. The impact of the war in Ukraine for the future design of monetary and fiscal policies in EMU is considered.

Syllabus

I - The International Monetary System (IMS): basic concepts

II - The European Monetary System (EMS) and the creation of the EMU

III - The European Central Bank (ECB) and the monetary policy

IV - From the 2007-2008 financial crisis and EMU's fragilities

V - The COVID 19 crisis and the war in Ukraine and prospects for the EMU and the EU reform

Demonstration of the syllabus coherence with the curricular unit's objectives.

(maximum 1000 characters)

Teaching methodologies (including evaluation)

Theoretical-Practical classes

Evaluation includes individual written assignments during the semester, final written report (on group), participation and presence.

Demonstration of the coherence between the teaching methodologies and the learning outcomes

FACULDADE DE DIREITO
Universidade de Lisboa

(maximum 3000 characters)
