

FACULDADE DE DIREITO
Universidade de Lisboa

Ficha de Unidade Curricular

Ciclo de Estudos _2.º Ciclo_____

1. Especialidade

Economia e Políticas Públicas

2. Docente responsável (preencher o nome completo)

Rute Neto Cabrita e Gil Saraiva

3. Nome da Unidade Curricular

Behavioural Law and Economics

4. Tema / matéria a lecionar

Behavioural economics attempts to increase the explanatory power of economics by using insights from the field of psychology. The main objective is to allow students to look to behavioural economics findings to explain both the effects and content of laws. In addition, behavioural concepts will help them in determining how the law might be used to achieve particular goals and in assessing whether the law is achieving its stated goals.

5. Resumo sumário (máximo 1000 caracteres)

- 1: Predictable irrationality?
- 2: What is Behavioural Law and Economics?
3. The Coase Theorem, the Endowment Effect and Implications for Property Law
- 4: Libertarian and Asymmetric Paternalism
5. Rebuttal of Behavioural Law and Economics
- 6: Applied BLE
