General Description of the Intensive Course

Constitutional justice is of main importance for the new constitutionalism in Europe. Constitutional courts interpret constitutions as “living instruments” often in a dynamic way and contribute essentially to the development of constitutional law concepts destined to moderate the political process and to protect the individual by fundamental rights. This active role of constitutional courts corresponds to the new understanding of Rule of Law.

The intensive course analyses the different models of constitutional justice in Europe, gives an insight into the various forms of actions and procedures and includes the international law impact on national constitutional jurisprudence.
