

**BLENDED INTENSIVE PROGRAM**  
**“DIGITAL SOCIETY & ECONOMY: LEGAL CHALLENGES”**  
**2024/2025**

Padova – Granada – Lisboa  
University of Lisbon Law School  
Alameda da Universidade – Cidade Universitária

**Organisation in Lisbon:** Erasmus office of the University of Lisbon Law School

**Scientific Coordination:** Professors Vasco Pereira da Silva; Isabel Graes; and Rute Saraiva

**Participants:**

Professors from the Universities of Lisboa, Padova & Granada.

Students: 10 per university + Students are expected to be independent English users (B1 or B2 level). No previous university courses are required.

**Programme:**

Online: 16 hours – February 24<sup>th</sup> to March 25<sup>th</sup>

In person in Lisbon: 16 hours – May 5<sup>th</sup> to 9<sup>th</sup>

**6 ECTS**

The course will analyse how a Digital Society & Economy impacts our legal system, since their times seem to be different. The technological evolution that we witness is faster than legal changes and may collide with the Law actually in force, typically built on a physical basis. This raises effectiveness, efficiency, and fairness problems and demands new and dynamic legal solutions that still have to be in line with the existing legal system.

The course will have an interdisciplinary and comparative approach by analysing the phenomenon from different legal approaches and branches.

**Assessment**

The assessment will consist of:

1. Assistance on the course: online and in person - 20 %
2. Oral discussion of the paper or case study completed during the course, individually and/or in groups – 80%

In Person Programme

16 hours – May 5<sup>th</sup> to 9<sup>th</sup>

Date	Programme
